Applications Engineer: Denis Mircea - denis.mircea@govconsys.com

Grand Bahamas Shipyard Governor/Engine Repair Shops

GCS & MSHS are proud to announce the opening of the authorized turbocharger and governor maintenance service centers in the Dockside Service Facility* at Grand Bahama Shipyard Ltd. (GBSL), Freeport, Grand Bahamas. Scheduled dry dock and emergency services available.

The GCS on-site governor test facility at the GBSL services Woodward, Regulateurs Europa and Zexel-Diesel Kiki governors and actuators.

The MSHS facility offers complete turn-key turbocharger service and is equipped with the latest in balancing technology, supported by a comprehensive inventory of complete turbochargers and spare parts. Factory-trained technicians are on staff to provide service either at the facility or on location.

#1 in Woodward Distributor Network

GCS is proud to announce that we are Woodward's #1 distributor and service center in the world.

Our staunch dedication to service and continuing investment in engineering talent and product, GCS is recognized as the Woodward leader. We are committed to maintaining the highest level of performance for our customers.

Napier Turbocharger Facility Opens in New Orleans

MSHS recently opened a fully authorized turbocharger maintenance and service center in New Orleans, LA offering complete turn-key services in the Gulf Coast region.

Fully authorized by Napier Turbochargers, a leader in turbocharger design and manufacturing, MSHS supports all marine applications and industries. MSHS Gulf is equipped with the latest in balancing technology and supported by a comprehensive inventory of both turbochargers and spare parts.
